

Become a part of our innovative team and shape the future of our company as

## **Software Developer SCADA & BDE Systems (m/f/d)**

We offer you all the possibilities of a modern development environment in a small team as well as the advantages of a medium-sized company from the mechanical and plant engineering sector. With us, you have the freedom to contribute your own ideas and to develop yourself professionally.

Every day, our customers in the automotive industry, medical technology and other sectors use SITEC production systems to manufacture their sophisticated products.

### **These are your tasks**

- Further development of SITEC's own software solutions from the areas of SCADA, PDA and OEE data processing.
- Development of software solutions with app character for our SITEC customer platform
- Support in customer projects
- Accompanying implementation of applications, from the initial idea to go-live and subsequent maintenance
- Support in research and development projects and cooperation with universities and other consortium partners

### **What we offer**

- Flexible working hours with working time account, flexitime and home office
- attractive remuneration system and company pension scheme (BAV)
- Company smartphone / laptop
- On-the-job training by experienced colleagues
- Job bike / covered bicycle parking spaces
- company parking lot / good public transport connections
- Employee events / family friendliness / nursery allowance
- Professional and personal training

## **These are the qualifications and experiences you will need**

- Degree in computer science, business informatics, automation technology or apprenticeship as an IT specialist or equivalent
- Interest and experience in software development
- Knowledge of and interest in the relevant programming languages HTML, JavaScript, Java as well as software technologies and architectures
- Knowledge in the development of relational and time series databases
- Willingness for short business trips
- Language skills in English and German

In case you do not find yourself completely in the qualifications completely, do not hesitate to apply. Together we will promote and develop your skills.

## **This is our SITEC culture**

We are a modern and innovative company where every one can contribute and develop. It is our daily aim to provide the best products and services to achieve the highest possible customer satisfaction. We take on these tasks with individual responsibility, but we can always count on the advices and the support of our colleagues. In addition, the improvement of your potentials is just as important to us as a coordinated work-life balance.

## **Do you want to become a part of the SITEC team?**

Our Human Resources team with **Ms. Kristin Pechmann** is looking forward to receiving your application and answers your questions in advance by phone at **+49 371 4708-241**.
